

THE IGBOS, MISEDUCATION, FARMING AND BIAFRA AGITATION!

Abia Vanguard!

Though you don't support us (besides highly offending us in the past) but we must commend you for this very good post that will help our Igbo people if they will listen!

Many of the world's greatest business leaders and inventors didn't have PHDs and some even dropped out from universities; Americans like Bill Gates and Zuckerberg and yet they founded great trillion dollars and global companies that are driving the world today and employing PHDs!!!

Many Igbos are natural scientists and inventors besides being great traders and business people but their natural talents are ignored at schools while the schools stuff their heads with Oyibo/European big grammars which they are expected to regurgitate back during exams to earn their degrees!!!

So an Igbo with a degree in mechanical engineering speaks big grammar but cannot change a flat tire which any young mechanic boy along ASA Rd in Aba, without any secondary school education can do while standing on his toes!!!

This is why this your post on MisEducation of black Africans should be read by our Igbo teachers and governors as well as all those in charge of educating our young Igbo people!!!

A fast, fundamental and revolutionary change is needed in the mindset, worldview of our people as well as in our educational system, which had been graduating big grammar speakers for many decades!!!

Furthermore, we should all go back to farming to produce the food we consume!!!!

The great wealth, technology and high living conditions that Americans enjoy today came from mechanized farming and agriculture which began with our enslaved Igbo people brought to America starting from 1619!!!

Many Igbos don't know the true origin of Igbo and our true history that it was us Igbo who started agriculture and all civilizations including technology in this world from Igbo land from where it spread globally!!!

What is the use of big degrees, big grammar and computer coding when we cant farm anymore and cant produce what we eat?!?

To many young Igbos today, (many of who were born in towns and cities), living in the village is like a death sentence!!!

When I lived in the village and was small, I farmed, climbed mango, guava, udara trees, hunted, collected fire woods from the bush; went to the stream and fetched water, bathed in the stream, went fishing, cooked sea water to produce salt, cooked food, ate and enjoyed yam, cassava, ede, akpu, garri, plantain, ofe onugbu, egusi and utazi soups; corn, ube (pears) roasted cahew nuts, palm kernels with garri, jelloff rice, mai-mai, agidi, chin-chin, buns, ukwa and took care of our goats and chicken.....

Some of the food crops that I cultivated in our farms were yams, cassava, ede, maize, tomatoes and palm oil from palm kernels...

We had to clear the land using matchets before cultivating and planting the seeds with hoes in earth mounds.....

I was never sick or became overweight because the day was filled with endless activities with my many village family members and friends!!!

I had loads of fun! It was like living in a sweet paradise compared to where I am now in a jungle of madness called New York City!!!

(I have already informed my people that whenever I come back that I am going back to my father's village to live and do everything I dream about doing there!!! And my people loved me because I was the most popular boy in the village.....!!!)

I even regularly went to the market with my loving grand ma to sell many food stuff especially fried groundnuts, puff puff, chin-chin and others which taught me trading!!!

I built my first house with woods and palm fronds at the age of 10 (before primary 4 Schooling!!!) and entertained my friends with making my own TV show because there was no TV in the village!!!

I used empty cartons to create a TV!!!

And entertain my friends in the night before we listen to Igbo folktales and stories by our older family members!!!

I made sandals with wood that I wore and also sold!!!

I designed my own clothes....and so on!!!

I even created wooden guns after getting tired of using catapult!!

There was no money and my village people were using cowrie shells in trading so I created a hand drawn paper money for them!!!

With a rubber stamp seal I created to make it official money for usage in my village thereby becoming the youngest village banker, Rothschild!!! Hmnmnmn...

Every 6am I had to wake up and use the broom that I made to sweep our big compound and the two roads connecting it to the main roads!!!

For a few yrs now, I and my friends, partners and groups in America have been quietly creating many legitimate businesses and generating true cash and have raised US \$5 billion!!!

In a few more yrs, we shall have at least US \$250 billion (or Naira100 trillion) Capital (through foreign currency trading, stock and commodities trading and investing, real estate investments, enterprise software development, TV shows, IT, Telecom, development of advanced inventions that will drive the new world order...) to buy land somewhere in Africa and build the first Mighty High Tech IGBO Nation That Will Compete With Dubai, Malaysia, Singapore And Rwanda!!!!

See the two FB Groups we created for this coming MIGHTY HIGH TECH IGBO NATION : @mine @igbonation, IGBO HIGH TECHNOLOGY EMPOWERMENT, @IGBOHIGHTECH)

All the lands in this world belong to the black Africans and IGBOS (the aborigines) so we can build an IGBO nation anywhere if it is not possible in Nigga-area, West Africa for now!!!

Ancient black Africans and IGBOS were great scientists and astronauts and had already explored the whole Universe millions of yrs ago and are presently living in millions of worlds with advanced technologies!

This is the reason why the names of all planets, stars, galaxies and universes are in Igbo until 11,000 yrs ago when Europeans aka Caucasians/ pink people/Oyigbos (Indo Aryans = Igbo = Followers of ARI/ERI the great Igbo potentate!) from India appeared, invaded and overthrew IGBOS globally exiled them and began rewriting the history of the world and translating all Igbo history into Latin, Hindu Sanskrit, Prakrit, Greek, Hebrew and finally English all of which are corrupted ancient IGBO LANGUAGE, their mother!!!

Our great ancient IGBO scientists are the ones sending UFOS which are their probes with which they spy on this world and monitor us!!!!

All the gods in all religions of the world (Your Jehovah/Yahweh, Moloch, Baal, Asherah) and mythologies of the world including Yoruba Spirituality (led by Oludumare and Obatala = Oba Ntu Ala, Oduduwa = Odu Ndi Uwa) are all ancient Igbos!

They have been called many names in different parts of the world, in ancient Egypt (Kemet) and Sumeria: Anu and Anunnaki = Igbo = ANUNNACHI = ANU NNA CHI!!!

(Here are some Anunnakis and their Bantu/Corrupted IGBO names: Alalu, Anu, Enlil, Enki, Nanna = Jehovah = Yahweh, Utu, Innana/Aphrodite/Ishtar/Esther, Thoth, Marduk, Ptah. Geb, Ninurta, Nergal, Adad, Ninhursag/Mammi/Hindu Cow Mother/Kali, Osiris, Set, Isis and Horus.....)

In Mexico and South America: Olmecs = Igbo = OLMECHI = ALA/OLU OMA CHI!!!

We can have many IGBO NATIONS!!! Why not?

This is an African and IGBO WORLD and ALL THE LANDS ARE OURS!!!

Our coming MIGHTY HIGH TECH IGBO nation will inspire the rest of African countries and spur true rapid development of Africa so that ALL AFRICANS will benefit and prosper!!!!

Those who are agitating and waiting for Biafra to magically appear should continue until they grow gray hairs and join their ancestors!!!

Yes Nigga-area will soon dissolve and another BLOODY civil war will break out over the nations' assets and oil wells and Igbo land will be invaded and another Igbo genocide and exile into slavery will commence since Igbos have no defense and cannot fight and there is no nation to support and supply weapons to them!!!

Alas, today many young Igbos have abandoned their villages and farming only to roam around in big cities chasing mirages of fast wealth, blood ritual money (As Yul Edochie, Kanayo Kanayo, Tony Umez, Ejike Asiegbu Zubby Michael and others have been promoting through Nollywood movies to the detriment of the reputation of Ndigbo worldwide just for them to make money ignoring the great harm they are doing to Igbos everywhere!!!)

Many stupid young Igbos engage in various stupid 419 scams, drug smuggling, armed robbery and they all blame Jubril Al Sudani and the marginalization of Igbos as the causes of their plights in life but never once looking in the mirror, like Michael Jackson sang about change that should start with the Igbo man and woman in the mirror!!!

And sadly some of our young youths born after 1970 had been listening to Kanu since 2014 and dreaming that very soon he will magically restore Biafra for them which will become the solution to all their problems in life and become a paradise on earth!!!

And if you try to talk sense into their thick skulls to understand the harsh realities of life, they get offended and begin to verbally and socially insult and abuse you!!!

The fall of Igbos is so sad!!!

We (@wilorg) cant sleep in the night because of all the suffering of Igbos all over the world on one hand and on the other hand about the stubbornness and naivete of Igbos to change and make their lives better!!!

Nnamdi, Uwazurike, Ohaneze and many Igbo activists and agitating groups have been working very hard to inspire Ndigbo but they are not magicians and have no wands to wave and solve Igbo problems!!!

Can this sink into your head?

It is the job of every Igbo person to take concrete, productive and creative actions to make change happen starting from wherever they may be, through self knowledge, self development, the cultivation of the right mind and strong body, self discipline, self control, ethics, creativity, starting a manufacturing business; the observation of Igbo Odinani and Omenani, speaking and writing Igbo language, learning technical skills, being organized and setting goals!!

Ndigbo na ekwu okwu welu si: Egbe belu, Ugo belu, nke siri Ibeya ebena....Biri ka m biri...live and let live.....!!! Igbo ta go?

Begin the change today right now by

being kind and helpful to other Igbos, stop duping and committing crimes against your fellow Igbos and others, as well as start being respectful to other African tribes.....and so on!!!

Keep your hands clean and return to the ancient great traditions of our great ancestors, Igbo Odinani, Omenani and spirituality which are the foundation of this world!!!

A tree without strong roots cannot live and Igbos are now rootless due to lack of knowledge of their true history, conversions to foreign religions and the abandonment of our Odinani Omenani, Spirituality and gods, which are the fundamental causes of our problems and hardships globally!!!

IGBOS are ancient people, the ROOTS OF HUMANITY, which explains why they are so strong, stubborn and filled with THE BIGGEST EGO!!!

Every Igbo thinks he is a King (Eze) or dreams of being one and filled with envy, jealousy and competition!!!

These are very strong qualities as well as why people inside and outside Nigga-area and all over the world fear IGBO SPIRIT, DOGGEDNESS, VIRILITY, HARDWORK AND PERSEVERANCE!!!

Roots have to be very STRONG to support the tree!!!

NDIGBO KNOW YOUR SELVES!

BE YOURSELVES!!!

STOP EXPECTING ALL LIVING HUMAN BEINGS TO LOVE YOU!!!

YOU ARE THE ROOTS AND NOT THE TRUNK, BRANCHES, LEAVES AND FLOWERS OF HUMANITY!!!

We have been researching Igbo origins and discovered so many secrets which Ndigbo must learn by going to our FB groups and Google to read about them free:

@agwology, @wiie, @widorg, @igbology, @igbometaphysics, @worldhistory, @africanhistoryorigin, @amorg, @amorgworldwide, @woaworldwide. @africorg, @unikings, @blade.....

Visit, join the groups, LIKE the Pages!

Share the educational posts to educate other Igbos, share your own problems and report what is happening to our Igbo people and their needs so we can tackle them!!!

Let us start during the day time to look for a black goat before it gets dark in the night time!!!

Atuo lu Omara, omata ife, mana atuo lu ofeke, ofenye isi ya na offia!!!

Udo na ndu!
